Re: funds for congenital heart defect

Dear Sir/Madam:

Ms. Vaishnavi Vilas Kale, 16 years old girl (UHID 1000556239) is under my care. She is diagnosed to have a congenital heart defect.

She needs to undergo ASD Device Closure.

At the Kokilaben Dhirubhai Ambani Hospital, the cost of operation will be approximately Rs.2,30,000/- from admission to discharge. This is at the general ward level (i.e.Multibed). The patient will be admitted in the hospital as soon as the whole amount is arranged.

Please help the patient with funds and please contact us with any questions or queries at any time. The cheques / demand drafts should be drawn in favour of 'Mandke Foundation.'

Regards

*For
Mandke*
